

## **Information Bureau of the Communist and Workers' Parties (Cominform)**

The court procedure to ban Communist Party of Ukraine (CPU) is close to be finished. The judgment of the District Administrative Court of Kiev (DACK) at the first instance is contrary to the Ukrainian law and international standards, and it is made in written procedure without participation of the parties to the procedure. Given these circumstances it's impossible to talk about the impartiality and objectivity.

We are confident that this trial is a politically motivated and is aimed to destroy the Communist Party of Ukraine - the real opposition to the current regime.

Let us invite you, dear Comrades, to participate in this process to support the CPU! Only our solidarity and support can help the party to overcome attacks of neo-fascist regime!

Kalevi Wahrman
